

SSI - LEVEL 2 TRAINING

June 28, 6:30PM theory Donovan's SCUBA
July (2) 3 at Lake OAHE

Although most of our local diving is done in shallow lakes, many of us are traveling to areas where deep diving can be enjoyed. This LEVEL TWO CLASS involving deep diving theory and techniques is one of our most challenging and rewarding classes.

Deep diving is a relative term. In some areas with limited visibility any dive over 40 feet is considered deep. In most tropical waters, over 80 feet is considered deep. Water conditions can affect the psychological as well as the physical abilities of the diver.

This specialty class helps prepare you for your deep dives with information on equipment, dive planning, emergency preparations, dive table review with new material on the Navy Decompression Tables and the psychology involved in deep diving. This three part class consists of one classroom and two open water dives.

Class price includes: theory class, diploma, Specialty level 2 credit.
Dive trip costs are extra and the dives can be completed at Isle Royale shipwreck diving or on one of our local one or two day trips aboard the SCUBA SPEARIT DIVE BOAT.

You will need to supply your own diving

equipment, which should consist of: log book with dive tables, bottom timer or dive computer, compass, tank pressure gauge, regulator with octopus, backup air supply such as: pony bottle with regulator or spare air, buoyancy compensator with inflator, full wetsuit or drysuit with proper insulation, weights, dive flag, slate-pencil and dive light.

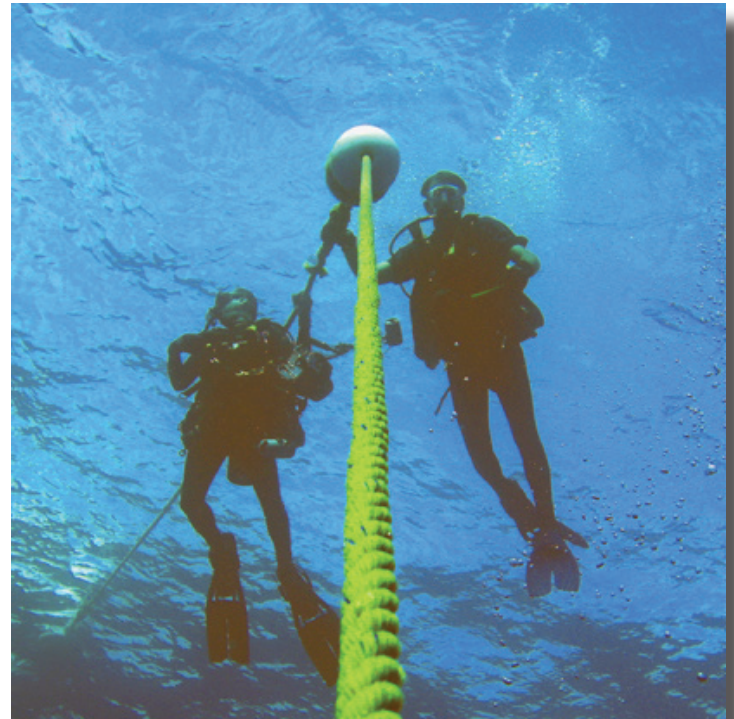

DEEP DIVING Class 137.00
ONE Day trip to Lake Oahe..... 135.00
